Personalized treatment programs are based on each individual child's needs and their daily recorded progress. Children typically participate in one-hour sessions four days a week. The clinic is open Monday through Thursday mornings. Children ages 6 months to 6 years are eligible.

YOUR CHILD

OUR MISSION

The Center for Academic Preparation provides intensive behavioral intervention to teach typical and atypical learners skills necessary to be successful in school and home settings.

About

Personalized treatment programs are based on each individual child’s needs and their daily recorded progress. Children typically participate in one-hour sessions four days a week. The clinic is open Monday through Thursday mornings. Children ages 6 months to 6 years are eligible.

Student Teachers

The teachers in CAP are undergraduate students in the Applied Behavior Analysis program. The students are chosen based on their academic excellence and their career goals to work with children. They have coursework and experience in behavior analysis, psychology, and child development coursework. The clinic is supervised during all hours by Kevin P. Klatt, Ph.D., BCBA-D, WI licensed behavior analysis.

Caregiver Involvement

As a caretaker, you will have the opportunity to observe and participate in your child’s sessions, learning parenting skills to help your child at home and in the community.
