TO: College of Arts and Sciences Curriculum Committee

FROM: Paula Kleintjes Neff, Chair  
Department of Biology

DATE: 20 Sept. 2019

RE: Program Change

We request implementation of the following program change with the next possible Catalog.

Name of Program: Biology, Ecology and Environmental Biology Emphasis, Liberal Arts, Comprehensive Major

Program Code: 080-001

Date of Department/Program Approval: Sept. 19, 2019

To: See attached

Why: The Ecology and Environmental Biology (EEB) Emphasis is growing and we also desire more flexibility for students. Thus, we needed to make necessary changes to the curriculum. Changes will help reduce time to graduation and the need for petitions. We have included BIOL 180 or GEOG 178 to count as part of the introductory sequence. This was discussed with and approved by the Chair of the Department of Geography and Anthropology. This gives students the most flexibility. The proposal was also reviewed by Advising, Retention + Career Center (ARCC) Life and Health Sciences advisors for suggestions. Please see attached tracked changes of catalog document.
